

Dear Parent/Carer

7 February 2022

In EYFS we will be focusing on the topic **"Are Eggs Alive?"**. As part of the topic we have organised an exciting experience with an organisation called **'Zoolab'**. This will entail a workshop working with animal experts, spending time looking at and learning about a range of smaller creatures.

This workshop will take place in school on **Tuesday 22 March**. Children will get to meet first hand a range of creatures and will learn about them through stories and active learning. The session will be very interactive with the opportunity to meet a range of small creatures.

This is an important part of our learning during Spring Term 2, it will support our learning about different animal life cycles and our focus on animals.

Should your child have any allergies related to bearded dragons, tarantulas, hissing cockroaches and frogs etc., and therefore cannot have contact with them during the workshop, please email the school office via School Gateway so appropriate arrangements can be put in place.

We are asking for a voluntary contribution of **£7.00 per child** to support this event. Please pay your contribution on School Gateway no later than **Tuesday 15 March 2022**. Unfortunately, if we do not receive enough contributions towards this the school reserve the right to cancel the event.

Please see a member of staff if you have any questions.

We thank you for your continued support.

Mr D. Fisher

EYFS Leader
